

discofake music

disko pigg
odai plateaux

artist: **disko pigg**
release: **odai plateaux**
label: **discofake music**
catalog no.: **dscfake001**
release date: **august 20, 2007**

tracklist:

1. **disko pigg - odai plateaux**
2. **odai plateaux (disko pigg silver klub mix)**

although previously facing many problems, we are finally starting and this is the first release on discofake music, the sublabel of the already established label acid fake recordings, dedicated to new dance music we r starting with the new macedonian talent **disko pigg** and his first single **odai plateaux**. after long communication with him and many demos received with different content finally he gave us his first album under **disko pigg** moniker. these two tracks are predecessor of the album that will come up later this year.

the first track is the original mix of **odai plateaux**. nine minute long epic deep house anthem colored with warm melodies and thick bass lines in a perfect harmony. deep house in its base but flavored with subtle dose of disco.

on the second track he shows us another side of himself. more energetic but still deep. harder house rhythm and still fresh melodies supported with hard bassline.

following his work back years ago with all his projects this is one his most gorgeous and majestic works, showing his producing abilities and development as an artist. precious diamond in the vast ocean of new dance music. waiting for his full length!!!

bio: the project disko pigg started in 2005 by 25 years old artist from strumica - macedonia known as vancheck kkost (vane kostadinov). vane has been active as a producer for the past seven years, producing under various monikers mainly electronic music, including music for short experimental movies, theatre plays, radio & video commercials and jingles, dj mixes...disko pigg sound is truly inspired by deep house, disco, electro and funk music...
